

NExUS Reports and Tools (Data, Products and Services) Fri Feb 15 18:32:53 EST 2019

Description "Climate Adaptation Knowledge Exchange" (CAKE) is a joint project of Island Press and EcoAdapt. It is aimed at building a shared knowledge base for managing natural systems in the face of rapid climate change. CAKE brings together EcoAdapt's recognized leadership in developing the concepts and practices of climate adaptation with Island Press's 27 years as the leading publisher of solutions-based environmental information to offer the most valuable, up-to-date, and authoritative materials on the subject. Just as importantly, it is intended to help build an innovative community of practice. It helps users to get beyond the limitations of their time and the unwieldy thicket of books, papers and articles. Type - PRODUCTS: Hindcasts (climatologies, models) - PRODUCTS: Forecasts and outlooks (monthly to annual, models) - PRODUCTS: Projections (intra-annual to multi-decadal, including SLR and model down-scaling) - PRODUCTS: Maps (Imagery, geo-referenced data) - PRODUCTS: Plans, Assessments, Studies Sector - Managed Ecosystems - Natural Ecosystems - Natural Ecosystems - Biota - Social and Cultural Resources - Recreation and Tourism - Coasts and Climate Resilience (including sea-level rise) - National - Regional Or State	Nome	Climate Adentation Knowledge Evahange (CAKE)
