

Name	Climate Ready Water Utilities Toolbox
Description	The Climate Ready Water Utilities Toolbox provides a searchable database for water utilities to identify relevant climate change-related impacts and target resources for responding to those challenges, including: Current federal, state, and association activities related to climate change impacts on water resources and utilities; Grant programs that could support climate-related actions by utilities and municipalities; Publications and reports; Tools and models, workshops and seminars. Resources searchable by utility type and size, region, water resources, climate change impacts, and climate response strategies.
Type	- PRODUCTS: Training and Capacity Building - PRODUCTS: Viewers and Web-based Tools
Sector	- Public Health and Safety - Infrastructure
Focus Area	- Climate Impacts on Water Resources
Region	- Regional Or State -- New England -- Mid-Atlantic -- Central - - Great Lakes -- South East - Local/City
