

Name	Connecticut Adaptation Resource Toolkit (CART)
Description	<p>The Connecticut Adaptation Resource Toolkit (CART) was developed by the Connecticut Department of Energy and Environmental Protection (CT DEEP) and ICLEI-Local Governments for Sustainability USA (ICLEI USA) and with funding from the US Environmental Protection Agency's (EPA) Climate Ready Estuaries through the Long Island Sound Study, a national estuary program.</p> <p>CART was developed to help local government staff, committee members and active participants in Connecticut have instant access to climate change adaptation resources thereby enabling them to easily and meaningfully benefit their communities. Too often individuals or communities want to minimize future risks and costs, but they do not know where to start or how to continue. CART is a one stop shopping website for ideas and methods on local climate change adaptation planning and action.</p>
Type	- PRODUCTS: Training and Capacity Building
