

NExUS Ongoing Projects and Activities Tue Nov 20 00:40:59 EST 2018

Name	Strafford Regional Planning Commission – Community Adaptation and Resiliency technical assistance work funded through the DES Coastal Program technical assistance grant
Description	SRPC will assist the town of Durham with developing a climate adaptation chapter for its Hazard Mitigation Plan. The SRPC will also assist the town of Newmarket in preparing an update of the Future Land Use Chapters of the Newmarket Master Plan. The Future Land Use chapter will focus on climate adaptation and resiliency and will identify community vulnerabilities and establish goals to protect coastal infrastructure and resources. In addition, SRPC will collect and assemble community datasets for the communities of Dover, Durham, Madbury, and Rollinsford in support of the FEMA Risk Map Project, which aims to provide communities with more accurate flood maps to help them better understand floodplain risk and its potential impacts.
