

NExUS Ongoing Projects and Activities Fri Feb 23 07:49:48 EST 2018

|               |   |
|---------------|---|
| <b>Name</b>   | <b>Community Climate Adaptation and Resilience Projects</b>   |
| Description   | The purpose of these projects is to work with coastal communities to facilitate climate resilience and adaptation planning and to identify infrastructure vulnerabilities and adaptation options for current climatic events as well as expected future risks associated with climate change (e.g., increased tidal flooding frequency under sea level rise).                                   |
| Category      | - Climate-change Specific Projects  |
| Sector        | - Infrastructure<br>- Natural Ecosystems  |
| Focus Area    | - Coasts and Climate Resilience (including sea-level rise)  |
| Region        | - Regional Or State -- South East   |
| Lead Agencies | NOAA Carolinas Integrated Sciences and Assessments (CISA)   |
| Contacts      | Jessica Whitehead, N.C. Sea Grant/S.C.
